Amendments to the Specification

Please amend the paragraphs at page 2, lines 1-8, in the following manner:

~~BACKGROUND OF THE INVENTION~~

1. Technical Field of the Invention

~~The present invention~~ This disclosure generally relates to a network terminal apparatus, and more particularly, to a network terminal apparatus that includes a memory unit for storing setting information of the network terminal apparatus, and communicates via a network.

Please amend the paragraphs at page 4, lines 6-19, in the following manner:

~~SUMMARY OF THE INVENTION~~

~~Accordingly, it is a general object of the present invention to provide~~ In an aspect of this disclosure, a novel and useful network terminal apparatus ~~in which at least one of the above problems is eliminated~~ provided.

~~Another and more specific object of the present invention is to provide~~ In another aspect of this disclosure, a network terminal apparatus that automatically acquires setting information is provided.

~~To achieve at least one of the above problems~~ In accordance with an exemplary embodiment of this disclosure, a network terminal apparatus ~~according to the present invention, the network terminal apparatus~~ which is connected to other network terminal apparatuses via a network, ~~the network terminal apparatus~~ includes:

Please amend the paragraphs at page 6, lines 3-6, in the following manner:

Other ~~objects~~ aspects, features, and advantages of the present invention will become more apparent from the following detailed description when read in conjunction with the accompanying drawings.
